Lancaster Farming

VOL. 6. NO. 46 Lancaster Farming, Saturday, October 7, 1961 $2 Per Year

JOHN NOLT AT ONE END OF THE HALTER rope and Larry Weaver at the other end carried away the grand championship in the New Holland Baby Beef show Thursday. Larry, far left, gave his Angus the human name for an undisclosed reason. Reserve champion honors went to the Angus steer of Roy Musser, right, of East Earl R1 Weaver lives at New Holland R1.

Angus Take Both Top Placings At New Holland

John Nolt, a 1,010 pound Angus steer waddled away with the grand championship in the roundup show of the New Holland Baby Beef Club Thursday. The beefy black brought a tidy $555 50 to his youthful owner, Larry Weaver of New Holland R1, at the sale later in the day

Larry, the son of Mr. and Mrs. Lester Weaver, purchased the calf at the Southeastern Pennsylvania Feeder Calf sale in Bedford last year from the herd of Stanley Koontz of Bedford. On Thursday he saw the steer go to Whitford Sales Company, Exton, for an even 55 cents per pound.

Roy Musser, son of Mr. and Mrs. Jacob H. Musser, East Earl R1, showed another black from the Koontz farm to the runner up spot in the show. "Billy" was the second steer shown by the 15 year old sophomore at Garden Spot High School. Last year his steer finished last in the show. The reserve champion weighing 990 pounds was bought by People's Restaurant in New Holland for 35 cents per pound

The only FFA steer in the sale was bid in for Joseph Venezia of Norristown at 30 5 cents per pound. The FFA champion, also an Angus was entered by Richard R. Martin, East Earl R1 He tipped the scales at 1,200 pounds

Champion Hereford in the show was exhibited by Harold Leaman, 2554 Creek Hill Road, Lancaster. Anna Pearl Lapp, Bareville R1, had the runner up Hereford of the show.

In the showmanship contest, Richard Leaman, a bro-

Manheim Dairy Champion Is Willow Street Breeder

A four year old Holstein cow from the herd of Melvin Peifer, Willow Street, topped the competition at the Manheim Farm Show dairy cattle competition Thursday.

Taking the reserve championship in the close competition was the senior calf exhibited by Robert Kauffmn, Manheim R1.

Elvin Shelly, Manheim R1 showed the 4-H champion of the Holstein breed.

Eleven year old Judy Flory, daughter of Mr. and Mrs. Lloyd G. Flory, Lititz R2, walked away from the show with a whole flock of ribbons as she swept both 4-H and open competition with her two year old Ayrshire sow, and went on to collect the championship in the 4-H fitting contest with the same cow.

Linda Eshleman, Elizabethtown R1, showed the reserve champion Ayrshire.

Judge Robert Heilman, assistant Cumberland County

4-H Dairy Team Places Fourth In National Show

Pennsylvania's 4-H Dairy Judging Team returned to the county Thursday afternoon with a plaque for fourth place in the national judging contest at the National Dairy Cattle Show in Waterloo, Iowa.

Only 10 points out of nearly 2,000 points separated the second and fourth place teams. Maryland's 4-H team took the championship with a total team score of 2 087; Oklahoma followed with 1,993 points, Florida scored 1,988 points and the Garden Spot contingent racked up 1,983 points in placing the ten classes of dairy cattle.

Competing against 33 other state teams, the local boys placed second in Jersey judging, fifth in Holsteins and 10th in Ayrshire-Brown Swiss.

Four County 4-H Members Awarded Trip To Chicago

Four Lancaster County 4-H club members have been named to receive trips to the national 4-H Club congress in Chicago Nov. 26 to 30th.

The four are among 22 Pennsylvania national award winners who receive expense paid trips to the 40th annual congress. They are Joyce Denlinger, Kenneth Porter. Donald Trimble and Darvin Boyd.

Miss Denlinger, the 13 year old daughter of Mr. and Mrs. Raymond Denlinger, 602 Enfield Drive, Lancaster, has completed 4-H projects in outdoor cooking, gardening and flowers. She is a member of the Conestoga Valley Sewing Club and has been a junior leader for four years. She won first place in the county dress review and the bankers award for being outstanding

H. R. Albrecht Resigns at PSU

University Park, Pa., Oct. 8—Dr. Herbert R. Albrecht, associate dean and director of the cooperative extension service, College of Agriculture, The Pennsylvania State University, today submitted his resignation to accept the presidency of North Dakota State University of Agriculture and Applied Science.

His resignation and new appointment become effective next January 1.

Wins Fi st Beef Crown In 8 Years Of Showing

A Manheim R3 youth took his first grand championship in eight years of competition at the Manheim Farm Show Wednesday night. Not content with one rosette, he went on to make a clean sweep of the show by garnering the fitting and showing crowns as well.

Wilbur Hosler, the 19 year old son of Mr. and Mrs. Mark Hosler, had never carried off the grand championship of a beef show although fame had brushed close by on several occasions In his first showing as an 11 year old club member, he exhibited the top Hereford in the Manheim show only to see two Angus place above him in the grand championship

(Turn to page 7)

Poultry Princess Is Londa Boyd

A pretty 17 year old Manheim R4 girl brought the title of "Poultry Princess" to the Garden Spot Wednesday night wren she was chosen by members of the North Eastern Poultry Producers Council (NEPPCO) at Harrisburg.

Miss Londa Boyd, daughter of Mr. and Mrs. Howard Boyd, was runner up in the contest for Queen of the State Farm Show last year and a runner up in the Miss Manheim contest a few weeks ago

New Holland

Slaughter Steers Down

Slaughter steers averaged 50 lower compared to the previous week's close at the October 5 auction at New Holland. Cows continued about steady Bulls were weak Receipts included 1071 head of cattle.

High choice and prime grade slaughter steers brought 25 60 to 26 00 with choice at 24-25.50. Good to low choice ranged 22 25 to 24. Standard made 21-22 25.

Cutter and utility cows brought 15 60 to 16 25 Canner and low cutters were 13 75-15.50 with shelly canners down to 12.

Utility and commercial bulls sold at 19 50 to 22 50 with good grade bulls up to 23 10

Medium and good 724-1 093 pound feeder steers were 20 50-23.

CALVES: 425. Vealers weighing under 105 pounds were 1 to 2 higher Heavier wgts. were steady as good and choice made 28-34 and choice and prime 34-27 50 Standard and low good were 25-28. Utility 20-25.

The Dairy cattle market was improved this week as increased buying power was noted. Most of the advance came on top fresh cows Receipts at the October 4 sale included 152 cows; 7 bulls and 32 heifers.

Fresh Holstein cows made $300-500 while Guernseys brought $175-225 and other breeds sold at $175-300 Stock bulls went to $110-205 and stock heifers returned $45 to $135 to their owners

At the October 2 auction of horses, ponies and mules, killer horses were lower as were all other kinds except top quality saddle and driving horses. Receipts were 275 head.

Pony mares brought $90-150 and geldings $40-110 Riding horses were worth $95-225, and Driving horses were $110-270.

Lanc Poultry Center

Broilers Drop Back Down

A familiar strain was heard at the Lancaster Poultry Center this week as broilers were reported down exactly one cent from last week. Nine lots including 20,600 broilers crossed the block at prices of 12.6 to 14.1 for a sale average of 13.03.

Two lots of 2,100 pullets brought 18 to 19 cents per pound while 1,100 roasters in two lots sold for 17 and 20. One lot of 275 turkeys brought 17 cents.

While nine lots of broilers sold, the 12 lots of broilers which did not change hands indicated that growers were not pleased with the prices offered. The birds not sold were bid to 12 to 12 8.

The complete October 5 auction offered 65,875 head in 26 lots and sold 24,075 head in 14 lots.

Following is the complete sale report with lot number, seller, grower in parenthesis, amount and breed, age in weeks and days, buyer and price.

CODE: WV - white vantress, WMt - white mountain TT - tom turkeys, MCX - moore's chesty cross, P - pullets, C - cockerels.

Delmarva-Georgia

½ Cent Lower Trending Down

Delmarva reported live prices trending downward and approximately ½ cent lower during the 24 - hour period ending 10:30 Friday morning. Reported sales and prices paid during the period were 607,600 head at farms at prices of 11.30 to 12.70.

Offerings were fully ample for current processing needs. Eastern shore processors estimated week end slaughter at 694,000 head compared with the 694,000 head last week end.

The Delmarva broiler-feed ratio during the week ending September 29 was up two points from the previous week at 3 2 Broilers averaged 14 33 per pound and mash cost the grower $90 92 per ton.

The ratio during the comparable week a year ago was 3 5 when broilers averaged 15 28 cents per pound and mash cost $88.37 per ton.

Local Hatchery In Top Division Of Laying Test

Four Lancaster county breeders were among the Pennsylvania hatcheries capturing nine of the 14 top placings in the state's annual Random Sample Egg Laying Test, according to the final report issued this week.

The Lancaster county entries ranked in the top quartile of the statistical ratings for net income were: Hubbard Farms, Inc., Lancaster; Keystone Hatchery, Creek Hill Road, Lancaster; Weaver's Hatchery, Lititz; and Longenecker's Hatchery, Elizabethtown.

The test compared performance of 48 sample flocks of egg-type chickens which were given identical feed, housing and management at the test facility operated by the Penna. Department of Agriculture in suburban Harrisburg.

Pennsylvania Farm Bureau Hatchery, Harrisburg, with a cross-strain "LSC-60"

FROM WHERE WE STAND -

Dilemma In The Broiler Industry

Once in awhile we come across a story or article which says just what we would like to say and says it just the way we would like to say it. Such an article is the one below reprinted from the Arbor Acres Review, published by Arbor Acres Farm, Inc. It reflects views of the farm's president, Henry Saglio, and supports the views of this editor, that the sands of time are rapidly running out for many broiler growers in America today. We believe it is a very accurate appraisal of the national situation in Poultry.

"The broiler industry, after repeated warnings from reliable sources and with the knowledge of all concerned, is on the brink of economic suicide.

"Unless some firm and intelligent decisions are made immediately, most of the industry people we know today will no longer be factors in the production of poultry meat. They will have been replaced by men who have the ability to give the industry the leadership to which it is entitled—an industry with a sound economic structure, and not one based on the philosophy that the only way to success is to drive the other fellow into bankruptcy.

"In the greedy race for power and prestige, we have defied every sound economic law, and have tried to justify our actions by blaming the other fellow. As a result, so much hate and mistrust have developed between individuals and between areas that there is a deep-seated determination for destruction at any cost.

"In recent weeks, numerous emergency meetings have been called in hopes of achieving group action. Unfortunately, group action in itself can accomplish nothing in this situation. It must be preceeded by individual action. Up to this point, the individual action has not been forthcoming.

" As long as birds are being placed *without regard to the final outcome* all the group action in the world isn't going to help. We're just going broke.

"Unless the present tendency toward self destruction is quickly replaced by a strong desire for survival within our own individual financial structures, there is no hope for the so-called leaders of the industry as we know it today.

"One of the first prerequisities of managing any business is the ability to manage **money.** The products of a company are only the working tools—the catalysts which generate a turnover of capital. The amount of product produced is significant only in the manner in which it affects the return on the investment. Product is a means —not the end.

"The individual businessman in this industry therefore must be judged on his ability to make a profit, rather than by the number of chickens he grows. His decisions must be based on his own financial position, over and above all other factors. We can't continue to be motivated by the actions of our competitors, or the fear that someone else might gain an advantage. The important thing is that you make money, regardless of how much or how little the other fellow makes. If our competitors go broke, there is no reason why we should rush to go with them. Individual business thinking must dominate within the financial capacity of each of us.

"There are three particular topics which have been widely discussed by industry people as we have started to sink toward insolvency.

"First, available supplies of our raw materials which are hatching eggs produced by our breeder hens Many advocate the 'only cure' is the disposal of 20% of the nation's breeders. Many agree—as long as it is their competitors' birds being slaughtered rather than their own. No doubt such an immediate reduction in the breeder hen population would have a beneficial effect. But, at best, the creation of an artificial shortage would be short-lived. This requires a management decision by each individual businessman. If disposing of a significant number of your breeders is best for **you,** regardless of what your competition is doing, then get rid of them.

"The second popular topic of conversation is the role of big business in our industry. Some feel that the 'power plays' of larger firms are basically responsible for our present difficulty. It depends on where you sit as to **what** is big or **who** is big.. Everyone is big to someone.

"Once again the actions of other people blind us to the opportunities in this industry for a well managed business. A perfect example is the degree of success attained by independent feed manufacturers under the umbrella of the larger national mills. Bigness in itself is neither an asset or a liability. The individuals involved determine the goodness or badness, the success or failure of any business enterprise.

"The third and last of the three most popular topics is government controls In my opinion, such controls will be necessary if, and **only** if, our present industry leadership fails to deliver.

"It has been said many times that the role of government should be to assist only when the individual can't help himself. When the time comes that we, as businessmen, are incapable of helping ourselves, then controls will be a necessity. Being bailed out is a poor substitute for good management.

"It really boils down to this — if you save **yourself,** you save the industry. It must happen in that sequence. Will **you** be present at the next roll call?"

That is a good question for **all** farmers to ponder.

At least that's how it looks from where we stand.

Farmers Urged To Grow Quota Of Winter Wheat

Earl L Groff, Strasburg R1, this week called on farmers of Pennsylvania to petition the Secretary of Agriculture for a separate program for soft red winter wheat.

Groff, State Chairman of the Agriculture Stabilization and Conservation Committee, in a letter to U. S. Secretary of Agriculture, Orville L Freeman, said he feels the present program is "grossly unfair" to producers of soft wheat since no surplus exists in supplies of soft wheat

He added that soft wheat has not in the past, and is not now adding to the storage holdings of Commodity Credit wheat

Groff said in the letter "The elimination of the 15 acre exemption portion of the law denies the farmer basic liberties to which he is entitled. Farmers who historically grew less than 15 acres had no voice in the referendum which authorized the program under which they are now penalized."

Groff cited the separate agreement on Duram wheat and the separate provisions under which different tobacco types are regulated as historical basis for separate legislation for soft wheat.

"I would urge farmers in the soft wheat growing area (the 22 states in Northeastern US, including all of Pennsylvania) to continue to grow their full quota of wheat to prevent a shortage of soft wheat and to maintain the good foreign market we now have for soft wheat" Groff told Lancaster Farming this week.

Groff urged that farmers write the Secretary of Agriculture asking for a relaxing of acreage controls until such time as a surplus of soft wheat begins to develop. If such a surplus does develop, he said, more stringent controls could be applied.

Christians Grow

Lesson for October 8, 1961

CHRISTIANS aren't such a peculiar breed that they stand outside the laws which God has written into nature, the laws that govern all human beings whether Christian or not. The Christian child has to learn his lessons and

Dr. Foreman

finish his spinach just like other children. The Christian teenager is not going to find he can get by without doing his home work just because he is a Christian. The boy who goes out for the basketball team had better be a good player or he won't get on the team, and that holds for Roman Catholics or Quakers just the same as for atheists.

There are certain laws of growth which are in force at all times and for all persons. The Christian grows, and can grow, only in the way that others do, when it comes to physical, mental and social growth. But what about spiritual growth? How can we, or can we, make progress as Christians?

"Learn from Me"

First of all, and most foundational of all, the Christian becomes more of a Christian,—he becomes more Christian in every aspect of his life—, by learning from Jesus. This means at least that Jesus is THE TEACHER, the number One teacher, of the growing Christian. If we take seriously the claims of Jesus as we read them in the New Testament, if we take seriously what the church says about the divine authority of our Lord, then the only logical conclusion is: If we take any other authority ahead of the authority of Jesus, we are insincere at worst, inconsistent at best. Now we can't learn from Jesus, we don't rate the name of "disciple" — which is to say, "learner"—if we never read or stop to think about what Jesus said. The study of the four Gospels is absolutely indispensable for Christian growth.

Copy Whom?

Of course, learning from Jesus is not only learning to do as he says, but also and always learning to do as he does, to live as he lived Even those who are not Christians understand this. Christianity is fully possible, Bernard Shaw said once, only in a nation of Christs. Quite right; and that is precisely what Christians should be aiming at—a nation of Christs. But after all, some one will say, Jesus lived long ago and in vastly different circumstances from ours. How can we follow him?

At this point we have a valuable hint from what seems at first a conceited remark by Saint Paul, but is not really conceited: **"Copy me,"** he writes to the Philippians (Moffatt's translation.) The Christians to whom Paul was then writing had no written gospels, and even if they had, they might have felt a little baffled. How could they—Roman citizens, slaves, Greeks, copy Jesus who was neither citizen nor slave nor Greek? Paul gives the answer. "Copy me"; for us this would mean, Imitate the most Christ-like persons you know, living in your own time and place.

Why Christians Don't Grow

It is a pathetic, tragic fact that most Christians are stunted. Christianity has not spread in the world as one would expect; and one big reason is that we don't have enough good samples of genuine all-round Christians. We are scrawny in spirit for the same reason that some sick people are underweight in body: we can't or won't take proper nourishment. "There is still much that I could say to you, but the burden would be too great for you now," Jesus told his disciples. "I could not address you as spiritual men," Paul writes to the Corinthians, "but as . . babes in Christ." Not even an inspired apostle, not even our Lord himself, can cram truth down into the mind of one who is not ready for it, or who rejects it There is a mental disease, or symptom, known as abouiia, in which the patient just does not want to do anything whatever. Set the patient, hungry from two days' fasting, down in front of a bountiful meal, and the patient sits there without moving, will starve there if not helped Spiritual abouiia is worse, for it starves the very soul

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

TO CHECK MILKING MACHINES — The milking machine is a noted labor-saving piece of equipment on the dairy farm; however, it may be the source of many problems if improperly adjusted and handled. Improper vacuum in the line and fluctuations of vacuum at the end of the teat during the milking period may cause serious udder troubles. All dairymen are urged to have their lines, pumps, and gauges checked to be sure that the equipment is in top-notch condition.

TO DRY NEW CORN—Most corn cribs are constructed to provide a maximum amount of air circulation to a maximum amount of corn; however, in times of a large corn crop many temporary storages are used that do not provide proper air circulation. This presents need of forced air ventilation thru the pile of corn to keep from heating & molding Air ducts may be constructed on barn floors or any other tight floor so that the air may be forced up through the pile of corn Multiple use of hay mow fans may be realized for this purpose

TO SPRAY FOR WINTER CRESS—Many hay fields are infected with a yellow-flowered weed in the spring named winter cress; this weed may be killed with the use of one pint of MCP per acre applied during mid to late October after a killing frost. It is not advised to attempt any spray next spring after the growth starts.

TO PREPARE FOR CHICKWEED SPRAY—Chickweed will crowd out stands of alfalfa or other legumes if not controlled; this weed is often very bad in summer seedings of alfalfa or pastures Control may be obtained by spraying with one of the DiNitros in October or November when the temperature is 65 degrees or higher, using 3 pints in 25 gallons of water per acre. The use of 2 pints of Chloro IPC in November or December when the temperature is less than 50 degres will also give control. Growers are urged to make the applications this fall rather than next spring

TO CUT BROOD SOW FEED COSTS—The feeding of grass or corn silage to brood sows at the rate of 8 to 12 pounds per head daily will cut down on feed costs during the gestation period; the silage fed in troughs with one pound of protein concentrate per head spread over top has given good results. --

4-H Beef Club Sets Deadline

Farm boys and girls 10 to 0 years of age who are interested in feeding a 4-H aby Beef should enroll in he project by October 15th ounty Agent M M. Smith said this week.

Members of the Red Rose Club will have a chance to re-enroll in the project at the October 11th meeting of the club at the West Lampeter Elementary School; new members may join the club by contacting any present member of the club or by leaving their name and address with any of the following Club leaders: Fred W. Linton, Quarryville R2; Elvin Hess Jr., Strasburg R1 Myling R Good, Manheim R 1; Jay R. Nissley, Manheim R4; Victor Longenecker, Elizabethtown R3, or Harry S. Showalter, Ephrata

Interested boys and girls in the New Holland area should contact one of the following Club leaders in that club: John B Lapp, Bareville R1; Lester M Weaver, New Holland R1; Harvey High, Bareville, and Chester B Nolt, Bareville, Smith said.

New Holland Tobacco Show Won By Student

Galen Witmer, East Earl, a senior at Garden Spot High School, harvested a lath of tobacco from his patch on the farm of Earl H. Witmer, who hires him during the summer, and saw the lath suddenly become worth $50 Wednesday.

Galen, the son of Mr. and Mrs. Harvey L. Witmer took the grand championship of the big tobacco show at the New Holland Fair with a lath of five stalks of Greider tobacco entered in the filler class.

The young farmer planted his first patch of tobacco last year but did not exhibit in the show last fall. This year he took the pick of his two acres and went for the big money. On the way he beat out the competition of 69 other laths of filler, wrapper and green tobacco.

Larry R. Weaver, of New Holland R1 took the honors in the wrapper division while Kenneth M. Martin had the best green lath.

George Carmin of General Cigar Company, judged the tobacco section of the three-crop show.

Omar Hess of Bareville had the best 10-ear exhibit in the corn show which saw a record 170 entries on the table. The 30-ear exhibit division was taken by Daniel E. Trimble, Quarryville R1. Roy A. Kline, Denver R2 paid for the best single ear.

Judge Frank Bamer of Penn State University said quality of the 30-ear show was excellent as was the single ear class. He said he thought the quality of the 10-ear show was somewhat less than last year.

The 10-ear exhibit carried a $25 award; the 30-ear class had a $15 top, and $5.00 was paid for the beht single ear.

An award of $100.00 for a leafy, green sample of artificially cured alfalfa went to Galen Crouse, Stevens R1 when judges John Baylor of PSU and James Stere of the New Holland Machine Company, placed his sample over the other 129 entries of the hay show.

Crouse, a dairyman who builds his feed program around a basic acreage of 48 acres of hay, earlier this year showed the reserve champion hay sample at the Southeastern Pennsylvania Hay show at Hershey.

Leon Hess, Gordonville R1, exhibited the champion field cured sample, also alfalfa, for an award of $50 and the blue ribbon.

race. Again in 1958, Hosler fed another Hereford and showed him to the reserve championship of the now defunct Lititz Show.

Fate again took the championship away from the Hosler farm when a steer bred on the farm was drawn for club work by a cousin, Glen Foreman Foreman took the steer all the way to the state championship at the Pennsylvania Farm Show in '60

Last fall Wilbur put a half brother of the state champion on feed and saw him waddle to the winner's circle Wednesday night

Judge Jack Phillips, from the Animal Husbandry Department of the Pennsylvania State University, placed the 1050 pound black, named "Paunchy" for his tendancy to fill out in the middle, over the Hereford of Jay Bixler, Marietta R1

Bixler, the 16-year old son of Mr and Mrs Lewis E Bixler, exhibited his 1 000 pound steer "Shorty" to the championship of his breed and reserve honors of the show Shorty was bred at Poca Dot Farms at Charlestown, West Virginia

Bixler garnered his reserve rosette in his first year of showing He is a junior in vocational agriculture at Donegal High School

Two other Hoslers got into the limelight at the show when Michael had the fattest steer of the show and Robert showed the champion Shorthorn. Both are younger brothers of Wilbur

Other placings in the show are as follows.

ANGUS

1. Wilbur Hosler; 2, Terry Petticoffer, Elizabethtown R3; 3, Judy Flory, Lititz R2; 4, Donald Snyder, Lititz R3, 5 Larry Brubaker, Mount Joy R1.

Growing HEIFERS and Dry COWS need

Wayne FITTING RATION

Wayne Fitting Ration produces rugged, full-bodied heifers that are thrifty and ready to breed at an early age. Fitting Ration also helps the dry cow replace flesh lost during the previous lactation and puts her in top condition to start the new milking period at a high level of production.

Bred heifers and dry cows must receive a highly nutritious ration in order to build the unborn calf. Wayne Fitting Ration supplies the vitamins, minerals, proteins and energy needed to drop thrifty, strong-boned calves.

In a test at the Wayne Research Farm, well fitted Holsteins produced 1720 lbs. more milk and 83 lbs. more fat then when not properly fitted.

New Ful-O-Pep Pig Starter is

GUARANTEED PALATABLE

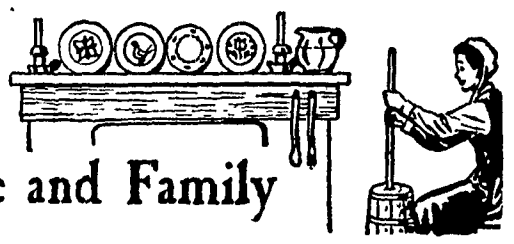
or your money back

The sooner little pigs eat and the more they eat the more they gain. With Ful-O-Pep Pig Starter, you can expect a pound of gain on only 1.4 to 1.6 lbs. of feed. That's why palatability is so important—pigs eat more and make greater gains at a time when those gains cost you less.

Try a bag of new Ful-O-Pep Pig Starter today and see if it isn't the most palatable Pig Starter you can buy. If your pigs don't prefer it, return the unused portion and we'll give you your money back.

KIRKWOOD FEED & GRAIN

KIRKWOOD, PENNA. Ph. LAmbert 9-2132



For the Farm Wife and Family

Desserts For Autumn

By Mrs. Richard C. Spence

Afternoons are crisp and sun-splashed, evenings are chilly and moonfilled and the dishes you find the most ap pealing are those fairly bursting with pungent spices.

This is the time when a dessert made of fresh fruit is a fine selection for meal's-end. Apples are at their peak; succulent and juicy, they are a treat whether munched out of hand, gently sweetened and spiced before simmering to sauce, or baked in a pie shell or up-side-down cake.

Upside-down-cakes feature numerous fruits, but none is more satisfying than this slices flavored by butter are one boasting apples. Apple topped by a batter and after baking emerge cinnamon sprinkled and delectable on top of the cake. Buttermilk makes this cake extra tender and light, lending the same wonderful flavor and qualities that it gives to all baked goods.

SPICY APPLE UPSIDE-DOWN-CAKE

¼ cup butter (½ stick)
1 cup firmly packed light brown sugar
2 cups peeled and sliced tart apples
2 tablespoons chopped wal nuts
Cinnamon
1½ cups sifted flour
½ teaspoon cloves
½ teaspoon cinnamon
¼ teaspoon allspice
½ teaspoon baking soda
¼ teaspoon salt
1 teaspoon baking pow-der
⅓ cup butter
1 cup firmly packed light brown supar
1 egg
½ cup buttermilk

Put ¼ cup butter in pan and set in oven to melt. Use an 8-inch square cake pan. Remove and sprinkle with light brown sugar. Arrange apple slices in rows. Sprinkle with chopped walnuts and cinnamon. Set aside. Sift together dry ingredients. Cream ⅓ cup butter. Add brown sugar and mix well. Blend in egg. Add dry ingredients alternately with the buttermilk. Pour batter over apple slices in pan. Bake 30-40 minutes in a 375 degree oven or until cake tests done. Invert on large plate. Let stand 5 minutes. Remove pan. May be served with ice cream if desired.

* * *

Apples combine with every dairy product, and whipped cream and apples make an unusually tasty duet. The gentle snowy peaks of whipped cream lend a delicately soft and velvety consistency to gelatin transforming it to a mousse as in this Pink Apple Dessert.

Crunchy apple pieces make a pleasant change from the soft fruit usually used in gelatin. Tart cooking apples are the best choice; their sharp taste contrasts well with the sweeter flavor of the pineapple also used

To unmold a gelatin dish simply and successfully: dip mold in warm water to the depth of the gelatin. Loosen around edge with the tip of a paring knife. Place serving dish on top of the mold and turn upside down. Shake, holding serving dish tightly to the mold. Repeat, if gelatin does not unmold readily.

PINK APPLE DESSERT

1 #2 (1 pound 4 ounces) can crushed pineapple
1 cup liquid (pineapple juice plus water)

Heat pineapple juice and water to boiling. Dissolve gelatin in this and cool until partially set. Fold in the pineapple, apples and walnuts into gelatin mixture Fold whipped cream into the fruit mixture. Pile into 8 individual dessert dishes or use 1 large mold. Chill until set.

* * *

Molasses Applesauce Pudding consists of a crisp, spicy crumb underpinning, a layer of spiced applesauce, and a topping of crumbs. Molasses gives the applesauce and crumbs a delectable caramel flavor touch.

MOLASSES APPLESAUCE PUDDING

1⅓ cups cornflake crumbs
⅛ teaspoon salt
¼ teaspoon nutmeg
1½ teaspoons cinnamon
½ cup molasses, divided
2 tablespoons butter or margarine, melted
1 can (1 pound) applesauce or 2 cups homemade apple sauce.

Combine cornflake crumbs salt, nutmeg, cinnamon, ¼ cup of the molasses, and the butter or margarine. Press half of this mixture into a greased 6x10x2-inch baking pan. Bake in moderate oven (375 degrees) 10 minutes Combine remaining molasses with the applesauce; spread over baked crumb mixture and sprinkle with the remaining crumb mixture Bake 20 minutes longer. 6 servings.

* * *

Pumpkin is definitely a must for autum desserts How about this Pumpkin Ice Cream Pie in a flavorful ginger snap crumb crust.

PUMPKIN ICE CREAM PIE

1⅔ cups ginger snap crumbs, finely rolled (about 22 snaps)
⅓ cup softened butter or margarine
¼ cup sugar
1 envelope unflavored gelatin
¼ cup cold water
½ cup cooked pumpkin, canned or fresh
¼ teaspoon ginger
1½ teaspoons cinnamon
1 teaspoon salt
1 teaspoon vanilla extract
1 quart vanilla ice cream, slightly softened
½ cup ginger snap crumbs, crushed

Thoroughly blend crumbs, softened butter or margarine and sugar. Press firmly against bottom and sides of a 9 inch pie plate. (The easy way is to press crumbs into place using an 8-inch pie plate) Freeze. Soften gelatine in cold water; add to pumpkin. Stir in spices, salt and vanllla extract. Cook over low heat until gelatin is dissolved. Cool. Blend with ice cream. Spoon into pie shell and smooth top. Sprinkle top with the ½ cup ginger snap crumbs. Freeze. Store in freezer until serving time.

* * *

An old New England dessert becomes a new taste treat with its addition of graham crackers. Served warm with ice cream—it's just right for brisk autum days.

MOCK INDIAN PUDDING

2 eggs
¼ cup sugar
¼ teaspoon salt
1 teaspoon cinnamon
½ teaspoon ginger
½ cup molasses
1 cup graham cracker crumbs finely rolled (12)
1 tablespoon butter or margarine
2 cups milk
1 pint vanilla ice cream

Beat eggs, sugar, salt, cinnamon, ginger and molasses together. Add graham cracker crumbs and butter and milk Heat and stir into egg mixture. Pour into 6 5-oz. custard cups Set cups in shallow pan containing ½-inch of water Bake in a moderate oven (350 degrees) until silver knife inserted in center comes out clean — about 40 minutes. Serve warm with vanilla ice cream Makes 6 servings.

* * *

LEMON MOLASSES FLUFF

1 envelope unflavored gelatin
⅔ cup sugar, divided
⅛ teaspoon salt
¾ cup water
6 tablespoons lemon juice, divided

Autumn Desserts

(From page 9

¼ cup molasses
1 tablespoon grated lemon rind
¼ cup ice water
¾ cup non-fat dry milk crystals

Combine the unflavored gelatin, ⅓ cup of the sugar and the salt in saucepan Stir in water, ¼ cup of the lemon juice, and the molasses Place over low heat, stirring constantly until gelatin is dissolved Remove from heat, stir in lemon rind Chill until mixture is the consistency of unbeaten egg white While mixture is chilling, combine ice water and non-fat dry milk crystals in a mixing bowl Beat until soft peaks form (about 4 min) Add the remaining 2 tablespoons lemon juice and continue beating until stiff peaks form (about 4 minutes longer) Beat in remaining ⅓ cup sugar Fold in gelatin mixture Spoon into serving dishes Makes 8 servings.

Maple Charlotte is a variation of the traditional Charlottes The flavored filling is made with maple syrup and gelatin rather than the conventional creamy custard base Fluffy whipped cream and stiffly beaten egg whites are added to the confection before spreading between layers of lady fingers Walnut halves border the sides of the cake, adding their distinctive flavor and crunch A piping of whipped cream is used to edge the delicacy

MAPLE CHARLOTTE

½ tablespoon unflavored gelatin
2 tablespoons cold water
½ cup maple syrup
2 egg whites, stiffly beaten
1 cup whipping cream
½ cup maple syrup
1 cup chopped walnuts
1 package ladyfingers
1 cup whipping cream
3 tablespoons confectioners sugar

Soften gelatin in cold water Boil syrup until it spins a thread Add gelatin, stirring to dissolve and pour slowly over beaten egg whites, beating constantly until thoroughly blended. Whip cream until almost stiff, add maple syrup and continue to beat until stiff. Fold whipped cream & nuts into egg white mixture. Split ladyfingers horizontally and place half in bottom of pan Cover with half of the syrup mixture, then remaining ladyfingers; top with remaining syrup mixture. Chill several hours.

Whip cream with confectioners sugar until stiff but not dry, use to decorate Charlotte Garnish with walnut halves if desired When ready to serve, turn Charlotte onto chilled platter.

Pork offered in supermarkets now is leaner than that sold five years ago

GLOVE FIT IMPORTANT

Proper fit is essential when buying gloves, reminds Bernice Tharp, Penn State extension clothing specialist Try on the gloves and bend your fingers See that the fingers are the correct length The seam attaching the thumbpiece to the body of the glove should be well under the fleshy part of the thumb.

Two typical calves weighing 100 pounds at 4 days of age gained 85 pounds by the end of six weeks for an average gain of 2 pounds per day. They were graded by a local meat packer as choice veal at 35c a pound for a net profit on each calf of $25.43. Their diet consisted only of Peebles' Groom Milk Replacer.

ALL "Certified" SEED IS NOT ALIKE

DON'T LET ANYBODY tell you all Certified seed is the same. There IS a difference! A. H. Hoffman Seeds, Inc. is not only the largest producer of "Certified" winter grains in Pennsylvania, but the superior quality of Hoffman "Certified" seeds exceed the state certification standards by a wide margin.

FOR EXAMPLE:

Penna. Certification Requirements for Wheat		A. H. Hoffman's Certified PENNOLL WHEAT (3 year average)
99.00% (minimum) —	PURITY	— 99.75%
1.00% (maximum) —	INERT MATTER	— 0.25%
90.00% (minimum) —	GERMINATION	— 94.7%
58 lbs. (minimum) —	WT. PER BU.	—61.5 lbs.

The certification tag is not enough. Hoffman tags on the seed you sow can mean bigger crop profits for you. That fact has been demonstrated over 60 years.

Get complete information and prices on Hoffman Wong BARLEY; Norline and DuBois Winter OATS, Red Coat, Pennoll, Dual, and Seneca WHEAT, Balboa and Tetra-Petkus RYE.

Contact your Hoffman Seedman or phone TW 8-3421 for delivery to your farm.

Poultry Assn. To Revive BarBQ

Chicken Barbecue will be on the menu again next week when the Lancaster County Poultry Association will revive the monthly sales of the delicious, golden broilers

June Sangrey, secretary of the association, said this week, the chicken barbecues at the poultry center will be resumed on the second Saturday of every month during the winter

Mrs Sangrey said special prices are available to any group reserving 50 or more halves in advance. The Barbecues feature carry-out service only; no chicken will be served on the premises

The first fall barbecue will have chicken halves for sale from two to six p m on Oct. 14 Mrs Sangrey said

Dairy Team

(From page 1)

Donald Trimble, Quarryville R1 was 9th high individual judge in the nation as he placed 10 classes and gave oral and written reasons on five of the classes.

Paul Trimble, a brother of Donald, placed 10th in the nation in judging Holsteins

Donald's score in all classes was 673. Paul had a 668 while Paul Welk, Strasburg R1, third member on the team, posted a score of 642 Robert Wenger, Quarryville R1, alternate team member scored 637 and was fifth in the nation in judging Ayrshires.

Victor Plastow, associate County Agent, and coach, accompanied the team to Waterloo

WHAT'S DOING AT EARLY BIRD?

"Doc" Williams (Research and Development) housed 3,300 leghorns here during July. These birds are housed in eight pens. We will, from time to time, keep you up to date on what's happening here.

Below are the combined results of ALL 3,300 birds in these eight pens:

Number of birds housed - 3,300 — Average Square Feet per bird - 1.8

Date Housed - July 21, 1961

First 28-Day Period Results

PRODUCTION		EGG QUALITY		EGG SIZE	
Ave. % Prod.	27.05	% Grade A & AA -	96.7	% Jumbo	0.1
Feed/Dozen Eggs (lbs.)	8.30 (30.79c)	% Grade B -	1.2	% Large	1.4
Feed/Doz. 24 oz. Eggs (lbs.)	9.93 (36.84c)	% Grade C -	1.6	% Medium	30.3
Ave. Egg Wt. (oz.)	1.66	% Loss, Crax, etc.	0.5	% Pullet	54.8
Ave. Body Wt. (lbs.)	3.35			% Pee Wee	4.2

Bulk feed costs for this period average 3.71 per 100 lbs. including pellets.

Second 28-Day Period Results

PRODUCTION		EGG QUALITY		EGG SIZE	
Ave. % Prod.	79.71*	% Grade A & AA -	96.6	% Jumbo	0.2
Feed/Doz. Eggs (lbs.)	3.20 (11.78c)	% Grade B -	0.8	% Large	4.5
Feed/Doz. 24 oz. Eggs	3.57 (13.14c)	% Grade C -	1.8	% Medium	52.4
Ave. Egg Wt. (oz.)	1.80	% Loss & Crax -	0.8	% Puddet	36.1
(Weights checked every other month)				% Pee Wee	4.2

* Extreme heat during period

Bulk feed costs for this period average 3.68 per 100 lbs. including pellets.

The above results are an indication of what can be achieved on our EARLY BIRD No. 26 and No. 24 diets ON YOUR FARM.

How do you compare?

If we can help you let us know. Ask any Miller & Bushong Service Representative or call us direct at Lancaster EXpress 2-2145.
